

PUPPY TIPS

FOR EARLY TRAINING SUCCESS

Teach puppy to like a **pen / crate** with toys/chews, to prevent bad habits, when not *actively supervised*

Ensure puppy gets 18–20 hrs **sleep**.

Good routines reduce mouthy, silly, overtired behaviour

Supervise & manage interactions with **kids** to ensure positive experiences for both puppy & child

Play with puppy to teach them toys are more fun than your skin or clothing & that good stuff happens around you

Focus on helping puppy learn positive associations and habits by **rewarding** what you like

Ensure puppy has pleasant exposure to different people, animals, objects, sounds, smells, textures, etc for early **socialisation**
